Letter from the Town Supervisor

The days are getting longer and winter is quickly drawing to a close. Before too long, our parks and facilities will come back alive with the sounds of laughing, cheering and splashing. In this 2012 Spring/Summer Brochure you will find numerous fun and exciting programs our Parks & Recreation Department has put together for those young and old which are sure to stimulate the spirits, minds and bodies of our residents.

There are so many recreational opportunities of which our residents can take advantage in the Town of Yorktown. Whether you like to be challenged physically in an exercise class; or mountain biking through a technical single track; or prefer to challenge your mind playing chess or learning a new language, the opportunities are available for you!

Please remember our Summer Day Camp Programs continue to get fantastic reviews and are a great opportunity for your school aged children to meet new friends and enjoy a wide variety of activities in a safe and supervised atmosphere during the month of July. The Department is also offering an array of week long camps during the month of August specializing in everything from sports to Italian lessons to Lego engineering.

I hope you take full advantage of the affordable opportunities being made available to you. Please do not delay and register early.

Have a safe and healthy spring and summer season!

Michael Grace
Yorktown Town Supervisor
