**HAND DELIVERED**

July 27, 2018

Dear Resident,

This is a follow up to our letter dated July 19, 2018. We want to keep you updated with the latest Algonquin Gas Transmission, LLC ("Algonquin") Horizontal Directional Drill ("HDD") construction activities in your area.

Currently, we are in the process of extracting the pipe out of the drill hole to our work site adjacent to Stony Street. As we mentioned before, the extraction process requires the use of a pneumatic hammer to keep the pipe string moving. The extraction work will continue over the upcoming weekend days of Saturday, July 28<sup>th</sup> and Sunday, July 29<sup>th</sup>. Our work hours over the weekend will be from 8 am until 7 pm. Algonquin will continue to work into next week until the pipe is completely removed from the drill hole. Our weekday hours will be from 7 am until 7 pm.

Algonquin has informed the Town of Yorktown and the Federal Energy Regulatory Commission of the extraction work. Our environmental staff will continue to monitor noise levels throughout the process from well-placed receptors.

If you have any questions, comments or concerns please feel free to contact our landowner hotline (866) 873-2579 and an agent will be assigned to your call.

Regards,

Martin J. McCarthy  
Algonquin Gas Transmission, LLC/Spectra Energy
