

Mission: To provide services for families during a major medical illness, like cancer treatments while caring for school aged children. We provide meals, laundry wash and fold services and household cleaning.

We are here for you during the COVID crisis: During the COVID crisis, we are expanding our meal service to include senior citizens, people who are immunocompromised, health care workers and first responders, including all of Putnam County, and Northern Westchester. Laundry and household cleaning are on hold during COVID crisis. This program is in partnership with the United Way of Westchester & Putnam. To sign-up or for information call 211 and ask about the Community Cares hot meal program.

Your donations mean so much: During this crisis, we are providing meals twice a week to senior citizens, people who are medically vulnerable, healthcare workers and first responders. Our COVID-19 Partnership is coordinated by United Way of Westchester & Putnam, meals are prepared by local restaurants using their take-out services, delivered by our volunteers and paid for by Community Cares. It is truly a partnership helping those in need and supporting our local businesses.
