

Meeting of the Town Board, Town of Yorktown held on Tuesday, January 24, 2023 at the Town Hall, 363 Underhill Avenue, Yorktown Heights, New York 10598.

Present: Thomas P. Diana, Supervisor
Edward A. Lachterman, Councilman
Sergio Esposito, Councilman
Luciana Haughwout, Councilwoman
Mary Capoccia, Councilwoman

Also Present: Diana L. Quast, Town Clerk
James. Glatthaar, Town Attorney's Office.

TOWN BOARD MEETING

Supervisor Thomas Diana called the meeting to order.

EXECUTIVE SESSION

Upon motion made by Councilman Lachterman, seconded by Councilman Esposito, the Town Board moved into Executive Session to discuss individual personnel issues. Upon motion made by Councilman Esposito, seconded by Councilman Lachterman, the Town Board moved out of Executive Session and proceeded with the meeting.

PLEDGE OF ALLEGIANCE

Councilman Lachterman led the Pledge of Allegiance.

MOMENT OF SILENCE

Supervisor Diana asked for a moment of silence to remember our troops and first responders and all who keep us free and safe. He also asked to remember the families of the victims of the recent shootings in California.

REPORT FROM THE TOWN SUPERVISOR

Supervisor Diana reported on recent Town events and updates.

UPDATE ON SKATE PARK RESTORATIONS

James Martorano, Jr., Parks & Recreation Superintendent, came before the Town Board to give an update on the restoration work being done at the skate park. He said that the first two phases of the project have been completed. The third phase is the restoration of the middle section that is the least in need of work. Superintendent Martorano asked the Town Board to weigh in on the decision to begin Phase 3 and close the park until June or July or hold off until the Fall of 2023 when the park is least used.

Supervisor Diana asked about current safety conditions at the park. Superintendent Martorano said it is very safe right now. He said the park would need to be closed for a maximum of 6 months, although the work could be completed earlier. Superintendent Martorano described the restoration and repairs that needed to be done, and he explained the center section was never unsafe; it was really the other portions that needed attention and are now complete. Upon completion, the skate park would be completely reconstructed and restored. The Town Board agreed to put off phase 3 until October 1, 2023.

UPDATE ON CEMENT PIPE RELINING PROJECT

Ken Rundle, Water Distribution Superintendent, came before the Town Board to give an update on the cement relining project on water mains. He said that the project began in the fall and 1800 feet of cement relining and cleaning of the water mains has been done in the Strawberry Road vicinity. Superintendent Rundle said they had very good partners on this project and worked very well together. He said that Hanover Street will be done in the spring and it is larger in scope – approximately 5,500 feet. Superintendent Rundle said that he has received thanks from residents on Strawberry Road who have said their water quality has improved. He said that it has also improved fire suppression pressure. Superintendent Rundle said that this project was completed ahead of schedule and under budget.

A discussion took place about doing a testing of water pressure before and after the Hanover Street work to see how the fire suppression pressure is improved.

Superintendent Rundle said that since money was saved in the first project, there is money in the 2023 budget to consider including the water mains along Front Street and Underhill Avenue. Supervisor Diana mentioned applying for grant money that may be available.

UPDATE ON SEWAGE SPILL BETWEEN DUNWOODIE COURT AND FLANDERS DRIVE

Dan Ciarcia, Town Engineer reported that this past Thursday there was sewage coming up from out of the ground. He said that the property is in Spectra Energy's right of way. He said that there was also a depression near where the 42-inch line went in that was related to the problem. Mr. Ciarcia said they plugged the downstream line, brought in a septic hauler and started a 24-hour operation to pump the area until it was fixed. He said that Spectra is particular about doing anything near their pipeline and the problem would require a contractor who is certified to do this type of work or dig by hand. Mr. Ciarcia said the Supervisor contacted Spectra and said this had nothing to do with the Town because it was their pipe. The Department of Environmental Conservation issued an emergency permit and work began on Saturday and was completed that evening and the pipe was repaired. Residents were notified of the spill.

Supervisor Diana said that the pipe was replaced with a different type of pipe so that, hopefully, this will not happen again.

Mr. Ciarcia said he spoke to Spectra about the sinkhole at Legacy Field and hoped to hear an update next week.

AMENDED WETLAND AND STORMWATER PERMIT FOR NYC DEP FOR BAPTIST CHURCH ROAD BRIDGE REPLACEMENT PROJECT RESOLUTION #50

Upon motion made by Councilman Esposito, seconded by Councilwoman Haughwout,

WHEREAS, the New York City Department of Environmental Protection ("Applicant") applied to the Town Board of the Town of Yorktown for the permits necessary to reconstruct the Baptist Church Road Bridge (BIN 2-26243-0); and

WHEREAS, the proposed activity requires a MS4 Stormwater Management Permit pursuant to Chapter 248, a wetlands permit pursuant to chapter 178, and a tree removal permit pursuant to Chapter 270 of the Town Code of the Town of Yorktown; and

WHEREAS, the applicant proposes to reconstruct a bridge that carries Baptist Church Road over Hunter Brook which will require the disturbance of 0.45 acres within a wetlands and wetlands buffer, 3,600 cubic yards of unclassified excavation, 350 cubic yards of rock excavation, and removing 93 trees including 10 specimen; and

WHEREAS, the action will require greater than 5,000 square feet of land disturbance, and

WHEREAS, pursuant to Chapters 178, 248, and 270 of the Town of Yorktown Town Code the respective permits are required for the proposed action in which the Town Board of the Town of Yorktown serves as approval authority; and

WHEREAS, the applicant has submitted a Town of Yorktown MS4 Stormwater Management and Tree Removal permit application FSWPP-053-21, dated July 16, 2021; and

WHEREAS, the applicant has submitted a short-form Environmental Assessment Form (EAF), dated July 29, 2021, and

WHEREAS, the applicant submitted a design report entitled "Application for Town of Yorktown Permits" dated August 2021; and

WHEREAS, the Town Board referred the application to various boards and agencies on October 15, 2021 and received and considered the following responses:

Conservation Board - October 21, 2021

Westchester County Planning Department – email dated October 21, 2021; and

WHEREAS, the proposed action has been determined to be an Unlisted Action under the State Environmental Quality Review Act (SEQRA); and

WHEREAS, the applicant has developed a tree mitigation plan pursuant to Chapter 270 of the Town code; and

WHEREAS, the Town Board has considered all reasonably related long-term, short-term, direct, indirect, and cumulative environmental effects associated with the proposed action including other simultaneous or subsequent actions and determined that the action will not have a significant adverse impact on the environment, and now

THEREFORE BE IT RESOLVED THAT, that a negative declaration is pursuant to the State Environmental Quality Review Act (SEQRA) is adopted; and

BE IT FURTHER RESOLVED THAT, the following plans and documents are approved subject to the below-listed conditions;

- Stormwater Pollution Prevention Plan prepared by Entech Engineering, P.C., dated September 2021;
- A set of plans consisting of 51 sheets entitled “Capital Project WM-30 Replacement of Baptist Church Road Bridge” dated October 26, 2021, (90% Design Submittal); and

BE IT FURTHER RESOLVED THAT, this permit is granted subject to the issuance of permits by the following agencies:

- New York City Public Design Commission
- New York City Department of Environmental Protection – SWPPP
- United States Army COE – Nationwide Permit #3
- New York State Department of Environmental Conservation
Stream Disturbance
Protection of Waters Permit - fill in navigable waters
401 Water Quality Certification
Coverage for stormwater general permit GP-0-20-001 SWPPP
Beneficial Use Determination; and

BE IT FURTHER RESOLVED THAT, the Wetland and Stormwater Permit is granted subject to the signing of the plans by the Town Supervisor and shall be valid for a period of three (3) years from date of this resolution and that all work associated with the Permit shall be conducted in strict compliance with the approved plans; and

BE IT FURTHER RESOLVED THAT, the Stormwater, Wetlands, and Tree Permit shall automatically expire upon completion of work; and

BE IT FURTHER RESOLVED THAT, the below-listed conditions must be completed within six months of the date of this Resolution or shall become null and void unless an extension is requested by the applicant (in writing) within said six-month period and granted by the Town Board; and

Conditions that must be met prior to the Supervisor signing the Plans:

1. A construction monitoring fee in the amount of \$5,000 must be submitted to the Engineering Department Clerk.

Conditions of the Stormwater, Wetlands, and Tree, Permit that must be met during construction

1. The applicant agrees to allow periodic inspections by the Town and its consultants.
2. No additional disturbance or modification to the approved plans is permitted without prior written approval from the Town Engineer.
3. A pre-construction meeting with the applicant’s contractors and the Town Staff must be held prior to the commencement of work. The applicant must contact the Town Engineering Department at 914-962-5722 x220 at least 72 hours in advance of the meeting date to schedule the pre-construction meeting. All trees to be cut or pruned must be clearly marked in the field in accordance with the approved plan prior to the pre-construction meeting.
4. The entire scope of work is shown on the engineering plans referenced herein; no additional land disturbing activity of any kind shall be permitted without the issuance of a new permit by the appropriate approval authority. No further changes to the existing site topography shall be permitted and no protected trees shall be cut.
5. The guidelines contained in the NYSDEC Standards and Specifications for Erosion & Sediment Control, latest edition, shall be followed. At the end of each workday, soil

- stockpiles shall be covered. If not worked on for more than seven (7) days, stockpiles shall be seeded/mulched with a silt fence around the perimeter.
6. No soil storage outside the limit of disturbance line is permitted.
 7. Road in front of property must be kept broom clean at all times.
 8. A copy of the waste manifest for material exported from or imported to the site shall be provided to the Engineering Department.
 9. The applicant or their representative shall notify the Engineering Department prior to the backfill of any underground stormwater management practices. The engineering inspector will confirm the required improvements have been satisfactorily completed.
 10. The applicant shall provide video documentation of pre-construction road conditions to insure pavement restoration to pre-construction condition upon project completion.

Conditions that must be met after project completion.

1. The applicant or his representative shall fill out and submit a Construction Completion Certificate to the Town Engineer. The Engineering Department will then perform a final inspection to confirm the required improvements have been satisfactorily completed. Applicant will be notified of any discrepancies from the approved plans or if any work is not acceptable.
2. A final site survey showing as-built conditions shall be provided to the Engineering Department, provide a printed copy and in pdf format.
3. When area is stabilized and erosion control practices have been removed, the applicant shall notify the Engineering Department and schedule a final inspection.
