It has come to my attention that you are considering putting in a solar array for the land purchased by the colangelo family on the Cortlandt Yorktown border . Twenty five acres of woods would be cut down if approved. Not only will it bring noise and dirt to this residential neighborhood and destroy the dens to hundreds if not thousands of animals like the bobcat and coyotes which walk around whenever there's construction. I fear for our safety and of the dogs and children in the neighborhood. Nothing has been decided yet and I hope you do not approve it. I live in the take end of the solar panels and I have a lot of woods to block it by my end but others will have to look upon it from their yards .

Sincerely

Marlene and Rafael Lopez
118 Mountain View road
